The location of Phillip Willis when he took the fifth of the slides that are in evidence as Willis Exhibit 1 and as Hudson Exhibit 1 was fixed not by Willis's testimony but, according to the testimony of FBI Photographic Expert Tyndal L. Shaneyfelt, by correspondence between Shaneyfelt and Willis. The Commission considered this (15H696) and considered it an adequate positioning. I should like to have copies of this correspondence which, under the order of the Acting Attorney General of October 31, 1966, should be in your custody and not subject to any restriction.
